DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fitter 6,675,842 in view of Pedersen et al. 5,624,062.

Fitter discloses a fluid delivery apparatus as seen in Figure 1, which comprises in combination a flexible fluid container/bladder (20) having an integral nozzle (28), a hose (34) coupled at a first end thereof to the first integral nozzle, a valve (84), a cap (32), a second nozzle (86), an attachment device (26). Fitter lacks that the fluid being a brake fluid. Pedersen et al. teach the used of a flexible vehicle fluid container (12) and within the container is brake fluid (col. 3, ll. 1-9).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the vehicle fluid of Fitter with the vehicle fluid of Pedersen et al., in order to dispense brake fluid as such material is notoriously known in the art.

Response to Arguments

3. Applicant's arguments filed 1/10/2008 have been fully considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
